U S NAVY RESPONSES TO VIRGINIA DEPARTMENT OF ENVIRONMENTAL QUALITY
COMMENTS ON SITE MANAGEMENT PLAN FOR FISCAL YEARS 2013 THROUGH 2014
CHEATHAM ANNEX FISC WILLIAMSBURG VA
3/27/2013
NAVFAC MID ATLANTIC

Response to VDEQ Comments
Site Management Plan Update
Fiscal Years 2013-2014
Naval Weapons Station Yorktown Cheatham Annex
Williamsburg, VA
March 27, 2013

Editorial changes have been accepted. In addition, the comments below were addressed as noted in the response.

Comment 1: Table of Contents, Schedule - Please update all schedule titles to indicate FY13-14.

Response: The referenced text has been updated as suggested. (Note: the schedules themselves already reflect the correct FY dates.)

Comment2: Section 2.3.2, Second Paragraph - The public website references:

NAVFAC Mid Atlantic
Public Affairs Office
9742 Maryland Avenue.
Norfolk, VA 23511-3095

(757) 445-8732, ext. 3096
wpnsta.pao@navy.mil

These references should agree.

Response: There are two separate public affairs offices (PAOs) with specific purposes. For Administrative Record (AR) information, the Norfolk PAO (listed above) is the one the public should contact. If they want general information regarding the Restoration Advisory Board (RAB) or site cleanup, then they should contact the base PAO (i.e., Mark). The text has been revised as follows to make this distinction:

For additional information, to review documents, make comments or express concerns please contact:

NAVFAC Mid Atlantic
Public Affairs Office
9742 Maryland Avenue.
Norfolk, VA 23511-3095
(757) 445-8732, ext. 3096
wpnsta.pao@navy.mil

Additional information regarding RAB meetings or environmental cleanup programs at CAX may also be obtained from the Naval Weapons Station Yorktown/CAX Public Affairs Officer:

Mr. Mark Piggott, Public Affairs Officer
160 Main Road
Yorktown, VA 23691-0160
Phone: (757) 887-4939

Comment 3: Section 3.2.2, Documents and Milestones Table - Please include all available TBD AR Document Numbers.

Response: The “TBD” placeholders for the Site 7 SI, and the Multiple AOC SI, have been updated with their respective AR Document numbers now that they have been assigned. The remaining “TBD” placeholders are for two documents that were inadvertently left out of the CAX AR. We are resolving this issue and will update the SMP with the AR Document Numbers during the next SMP update.

Also, it was brought to our attention (by the NAVFAC Librarian) after the FY13-14 SMP Update was submitted for VDEQ and EPA review that the AR numbers we had listed for several of the construction documents (e.g., removal actions) were in fact Site File numbers and not AR numbers. The construction documents are part of CAX’s Site File and are not included in the AR. The public can get copies of these documents through the Navy’s Norfolk PAO instead of through the AR on the public website. The SMP was updated to reflect this new information.
